OBJECTIVE

I am a highly motivated Computer Science student who seeks an entry level position in Software Engineering to further my software testing and documentation skills.

EDUCATION

Computer Science | Western Governors University

2020 – 2024

Competency-based education provided me with the foundations for business-oriented technical skills and knowledge. Courses were passed with a score of 80% or higher, and acquisition of CompTIA Project+ and ITIL Foundations certifications were required.

RELEVANT EXPERIENCE

Retail Salesperson | Batteries Plus Bulbs

JUNE 2019 – AUGUST 2019; AUGUST 2021 – NOVEMBER 2021

Cultivated and maintained customer relationships, provided technical support, and performed store administrative services with an emphasis on promoting sales, supporting business operations, and leveraging battery and lighting technology expertise to provide professional advice.

Enumerator | US Census Bureau

SEPTEMBER 2020 – OCTOBER 2020

Employed foreign language skills and strong people skills to interview diverse residents in assigned areas, explain the purpose of the Census, ask questions, and record answers. Learned how to handle sensitive Federal Government data in accordance with agency policies and federal laws.

Cyber Camp Crew Trainer | US Space & Rocket Center

MAY 2022 – JULY 2022

Taught fundamental computer science and cyber security concepts to students and led them through various camp activities and programs.

Huntsville City Schools Campus Security Officer | Laine Federal Solutions

MARCH 2022 – MAY 2023

Patrolled and monitored premises, followed emergency protocols, and assisted school resource officers and administration to address severe behavioral disruptions.

Software Test Engineering | Parry Labs

MAY 2023 – PRESENT

Lead test engineer for 4 units of portability on the EUAS Ground Modernization Software Suite. Created test automation software for these UoPs.

SKILLS
